Recycle your beaford Season Guide into Union Jack Bunting

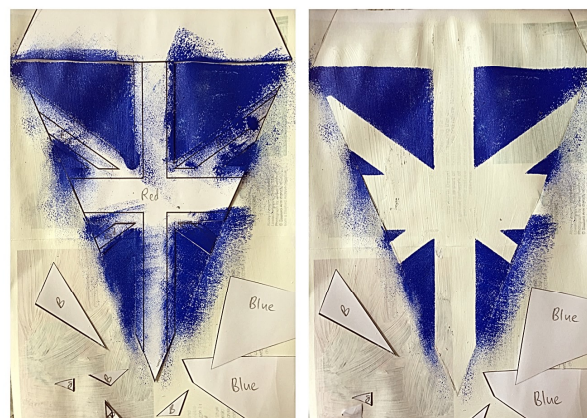

You will need...Season Guide or other paper, paint, sponge, brushes, water, scissors, Union Jack template (Pg 3), glue and string.

Start by painting your season guide pages white and leave to dry. Cut out the Union Jack Template.

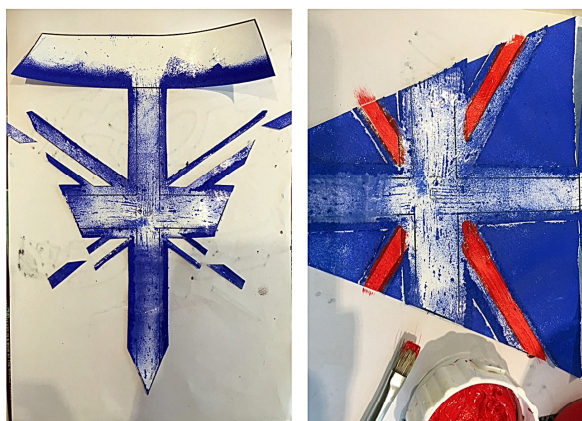

Cut out all of the sections marked 'Blue' then place on the white paper and use a sponge to paint these 8 sections blue.

If you don't have an old sponge you can use a brush. We rather like the texture that the sponge gives!

Once you've finished all of the blue sections leave to dry and cut out your flags.

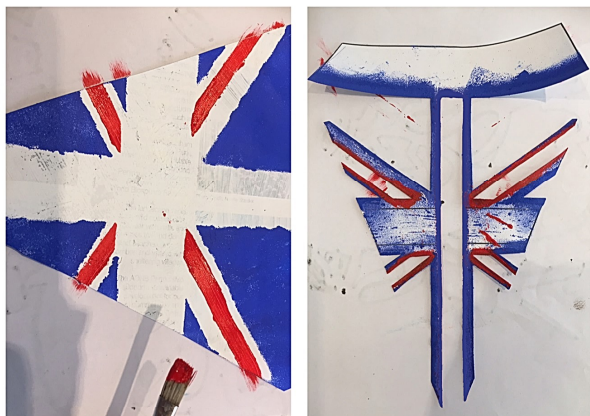

Next you cut away the outer sections of the template marked 'Red', carefully place the template and use a thin brush to paint these 4 sections red.

Recycle your beaford Season Guide into Union Jack Bunting

Next you need to cut out the long strip of the remaining red section.

Once you've painted the long red line you will need to freehand the short section using the brush.

Once you've finished the red sections you will be ready to attach your bunting to string.

Fold your bunting over the string as indicated on the template and attach with glue.

Your Union Jack bunting is now ready hang up!
